Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-15 and 21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Becket (USP 5,710,372).

See the appropriate paragraph of the 7/16/08 Office action for the teachings of Becket.

The 9/9/08 amendments claim the sample is an "organic solvent based functional fluid." The Office has interpreted these limitations as requiring the functional fluid to at least contain one organic solvent. Becket teaches in column 14 lines 11-14 the sample fluid can contain "organic compounds" which have been read on the claimed "organic solvent."

Response to Arguments

Applicant's arguments filed 9/9/08 have been fully considered but they are not persuasive.

Applicants' state the instant claims are directed to obtaining a sample of an organic solvent based functional fluid whereas Becket teaches analysis of an aqueous fluid. The instant claim language is open and does not exclude the presence of aqueous components of the sample. The instant claim language has been interpreted as requiring at least one "organic solvent." Becket teaches in column 14 lines 11-14

there are organic components of the sample which has been properly read on the claimed "organic solvent based functional fluid."

This is a RCE of applicant's earlier Application No. 10/823,219. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
